MAYSVILLE, KENTUCKY, SATURDAY, JUNE 1, 1918.

THE MAGIC EYE
Featuring the wonderful Juvenile star Zoe Rae is the feature extraordinary at the Pastime Monday, June 3. A thrilling drama in five acts. All stars cast.

JUNE MEETING POSTPONED
Owing to the absence from our city of a number of the Kings Daughters the June meeting will be omitted.

Miss Rebecca Hechinger was in Cincinnati yesterday.

SUN BROS. SHOWS HERE TUESDAY

This old time favorite tented attraction will arrive in Maysville Tuesday, June 4, and will give two of its superb performances here on that day, afternoon and night.

The dogs, ponies, sea lions, elephants, etc., all have new acts now, the clowns are right up to the minute and the show this year is the best in the history of this famous amusement enterprise.

REGISTRATION NOTICE

All male persons residing in the county of Mason, who have, since the fifth day of June, 1917, attained the age of twenty-one years, shall be subject to registration in accordance with regulations prescribed by the president.

Each person will present himself to the Local Board for Mason County at Postoffice Building between 7 a.m. and 9 a.m. on June 5, 1918.

Mason County Local Board.
SHERMAN ARN, Chairman.

SAFE NOW TO BUY OHIO LIVE STOCK

The following letter has been received by Captain C. M. Phister, which is self-explanatory:

Mr. C. M. Phister,
Maysville, Kentucky.

Dear Sir:
Having received official information from the Ohio State authorities that deer diseased with anthrax has been destroyed, premises cleaned and disinfected, no new outbreaks reported,

We are of the opinion that it is safe for us to accept live stock from Ohio, provided said live stock are accompanied by an official health certificate or permit from this office.

This will be your authority to accept for delivery in Kentucky live stock accompanied by an official health certificate or permit, as above mentioned.

Very truly yours,
S. F. MUSSelman,
State Veterinarian.

Porch Rugs That Do Not Fade

SALE OF PURE-BRED CHICKENS

Donated by Patriotic Citizens—Proceeds Given to Red Cross.

Several of Mason county's patriotic pure bred chicken raisers have contributed a portion of their flock to be sold on next Monday at 1 o'clock p.m. in front of the Court House, and the entire proceeds of the sale will go to the Mason County Red Cross.

The offerings will be of the very best stock and should sell at fancy prices.

Those making donations with the number and breed of bird follows:

Thomas A. Duke—Trio Anconas.
Charles W. Conrad—Trio Rhode Island Reds.

George A. Dodson—Trio Anconas.
Charles Rosenstein—Trio White Plymouth Rocks.

Judge H. P. Purnell—Trio Anconas.
James M. Collins, Jr.—Two pairs pure bred Homer Pigeons.

Mr. and Mrs. Carl Dodds and Miss Lucie Smith will go to Mt. Olivet tomorrow, where Mr. Dodds will assist Judge W. T. Kenton in launching the War Savings Stamp Campaign in Robertson county. There will be a conference in the afternoon and in the evening a splendid musical program will be rendered.

A large party of ladies and children spent yesterday afternoon and evening at beautiful Beechwood Park, an ideal place for an outing of this kind, and it is predicted that this will be one of the most popular recreation places in this section this summer.

Hit the other fellow first. It is more blessed to give than to receive.

ADVANCE UNCHECKED

RIGHT BANK OF MARNE REACHED BY GRAY COATS

More Than 45,000 Prisoners and Far in Excess of 400 Guns Have Been Taken by Enemy, According to German Official Communication—Americans Make Successful Raid.

Washington May 31—A successful American raid today in the Woerthe sector, in which the enemy's advanced positions were destroyed and losses inflicted in killed, wounded and prisoners, is reported in General Pershing's evening communiqué. The dispatch follows:

"In the course of a raid executed this morning by our troops in the Woerthe, our technical detachments destroyed the enemy's advanced positions. At the same time, our raiding party inflicted losses in killed, wounded and prisoners."

Berlin, Via London, May 31—More than 45,000 prisoners and far in excess of 400 guns, and thousands of machine guns have been taken by the Germans, according to the German official communication issued today.

"On the front from Noyon to the west of Rheims, our attacks are progressing favorably," says the communication.

The text of the communication follows:

"There have been artillery duels of varying intensity and minor infantry engagements."

"We have closely pursued the enemy retreating from the Allette front. South of Oise and across the Allette, we captured the Breteigny-St. Paul Crosly-Loire line.

"North of the Aisne in constant fighting we drove the enemy back by way of Brieux-Chavigny.

"To the south of Soissons the French brought forward cavalry and infantry for a violent counter attack. They were caught with disastrous effects by our fire and defeated.

"We have crossed the Soissons-Hartenden road.

"French divisions which were brought up in the direction of Fere-en-Tardenois from the southwest across the Marne and from the southeast were unable anywhere, in spite of their desperate counter attack to offer successful resistance to our advancing troops."

"The rear positions of the enemy at Archy and Grand Rozoy were pierced. To the south of Fere-en-Tardenois, we reached the Marne. The heights of Sainte Gemme, Romigny and Champosy are in our possession.

"On the southern bank of the Vesle, to the west of Rheims, Germigny and Thillois were captured.

"The number of prisoners and booty are increasing continuously. More than 400 guns and thousands of machine guns have been taken."

Fall of Rheims Believed to Be Matter of But Short Time

London, May 31—The Germans in their Champagne offensive in France have now reached the right bank of the river Marne on a ten mile front, according to a statement given today by the British general staff.

The message says that the Germans have not yet entered Chauteau-Thierry but that they are attacking heavily there and to the northward. The announcement which is said to express the opinion of the general staff continues:

"The situation around Rheims is not quite clear, but if it is not already lost it seems clear it must fall very soon."

"Yesterday, the French were driven back to a line from Noyon to Soissons."

Homeward Bound Transport Sunk Washington, May 31—Loss of the homeward bound transport, President Lincoln, was reported today by Vice Admiral Sims. The message was brief, merely stating that the vessel was torpedoed at 10:40 o'clock this morning and went down an hour later. It made no mention of casualties.

Navy officers waited anxiously tonight for further details, but as the

attack occurred in daylight and the ship remained afloat for an hour they felt certain the casualty list would be small and probably limited to a few men killed or injured by the explosion.

The President Lincoln was a big former passenger liner of the Hamburg American line. She was one of the German ships taken over by the United States at the declaration of war.

WHAT'S THE FARE, PLEASE?

Harrison County's Grand Jury Report Will Cause a General Rush to Cynthia of the Members of the Ancient Order of Dry Throats.

The Harrison county grand jury, which adjourned Thursday, reported that "a few physicians with large practice appear to have not given any prescriptions for whiskey" but that "a number of physicians appear to be devoting a considerable portion of their time in writing whiskey prescriptions" and here's the official wording:

We have examined the prescription books of the two drugstores in Cynthia selling whiskey on prescription and find what while some of the physicians of the county have not given an unseemly number of prescriptions for whiskey, a number of physicians appear to be devoting a considerable portion of their time in writing whiskey prescriptions. The Grand Jury is of the opinion that the local option laws are being grossly violated in this respect, but by reason of the limited time we are permitted to be in session we have been unable to thoroughly investigate this matter.

We are of the opinion that a Grand Jury could well devote at least a week in investigating this evil and returning indictments against those physicians guilty of violating this law. We find that between January 1, 1918, and May 28, 1918, over two thousand prescriptions for whiskey have been filled by the two drug stores selling whiskey in Cynthia.

A few physicians with large practice appear to have not given any prescriptions for whiskey, and it occurs to this Grand Jury that if some of the most reputable physicians do not find it necessary to prescribe whiskey in their practice, that others might well profit by their example.

While we do not desire to shirk the burden of investigating this matter from ourselves, we recommend that the September Grand Jury investigate the practice.

The funeral of Mrs. Dolly West, who died yesterday morning at her home near Springdale, will be held this afternoon at 2:30, interment in Bethany cemetery. She is survived by her husband and three small children.

Any man can view trouble calmly, provided it isn't his.

Fall of Rheims Believed to Be Matter of But Short Time

London, May 31—The Germans in their Champagne offensive in France have now reached the right bank of the river Marne on a ten mile front, according to a statement given today by the British general staff.

The message says that the Germans have not yet entered Chauteau-Thierry but that they are attacking heavily there and to the northward. The announcement which is said to express the opinion of the general staff continues:

"The situation around Rheims is not quite clear, but if it is not already lost it seems clear it must fall very soon."

"Yesterday, the French were driven back to a line from Noyon to Soissons."

Homeward Bound Transport Sunk Washington, May 31—Loss of the homeward bound transport, President Lincoln, was reported today by Vice Admiral Sims. The message was brief, merely stating that the vessel was torpedoed at 10:40 o'clock this morning and went down an hour later. It made no mention of casualties.

TO ICE CONSUMERS

You Will Be Able to Get Your Ice Tomorrow From the Wagons.

Having been compelled to cease Sunday operations because of the intervention of the Commonwealth's Attorney, who waved the indiction flag at those engaged in this business, there was great inconvenience in this community last Sunday, and it was wholly among the poorer classes of people, who cannot afford the luxury of a refrigerator. A conference with the proper arm of the law has eliminated the trouble, and tomorrow and every Sunday during the hot term the wagons will make their regular ice deliveries, which is a sensible thing and a work of absolute necessity.

NEW PASTOR TO TAKE CHARGE TOMORROW

Rev. B. B. Bailey, who accepted the call to the pastorate of the First Baptist Church here several weeks ago, will arrive today with his family from Arkadelphia, Ark., and will preach his first sermon tomorrow morning. Rev. Bailey was not only pastor of the Arkadelphia Baptist Church but was also a teacher in the Arkadelphia Baptist College. He comes here with a splendid record as a pastor and pulpit orator and the local church feels quite fortunate in securing his services.

The Daughters of the Confederacy will meet Monday afternoon at 3:30 at the Maysville cemetery to observe Decoration Day.

Mr. Harry McNutt of Manchester, Iowa, is visiting relatives and friends in this city and county.

WILL TEACH IN THE MAYSVILLE HIGH SCHOOL

Yesterday Miss Scottie Stevenson tendered her resignation as a teacher in the Washington Consolidated School to accept the position as instructor of Home Economics in Maysville High School.

Miss Stevenson is a graduate of our local High School and also of Miami University, Oxford, Ohio, and comes highly recommended to the Board of Education.

AMERICA IS THE FINANCIAL GIANT AMONG NATIONS: YES
AND WHY?

During the present war the American people have had called to their attention in a striking way the financial strength of the United States. Financially America is the giant among nations. With a population of 102,000,000, we have a national wealth of \$220,000,000,000 and an annual national income of \$38,000,000,000. The other entente allies as a whole, including Russia, have a population of nearly seven hundred millions, but a total wealth of only \$287,000,000,000, and an annual income of \$34,000,000,000, or less than that of the United States. Germany has two-thirds the population but only forty per cent of the wealth and little more than one-fourth the annual income of the United States. We have less than one-eighth the population of the wealth, and more than forty per cent of the annual income of all the other belligerent powers, comprising every great industrial nation.

As a people we acquired nearly all of this great national wealth and earning power, which is nothing short of marvelous and today becomes the decisive factor in the great world war, under more than a half century of Republican legislation and administration. While the demagogues and doctrinaires have inveigled against the protective policy, and even now demand its abandonment, under it the American people have had progress and prosperity without parallel in all the world's history. Who having at heart the continued greatness of this republic would tear down the economic barriers behind which we have created so great an industrial power, under free institutions and a social system in which class and caste are unknown in the foreign sense?

A contributor to the New York Times suggests that the soldiers of the United States are fighting with the hope of establishing universal free trade spurring them on to deeds of valor. Imagine an American patriot shedding his blood for the tariff plank in a democratic platform! With these figures before him, imagine any good American wanting to destroy the prosperity of the greatest republic of earth in order to enrich the importers and the foreign producers of Europe and the Orient!

AL BUTTINSKI

The controversy over the revenue bill seems to have simmered down in its latest stages to a trial of strength between Secretary McAdoo and Postmaster General Burleson. The latter sought to have the question made one for discussion by the Cabinet, and Mr. McAdoo violently objected, arguing, with logic on his side, that it was a matter for the Congress and the Treasury Department to decide. The honors of the final decision will be found to rest wholly with Mr. McAdoo; but Mr. Burleson will reluctantly, if at all, relinquish his role of Mr. Buttinski. There are many nosy individuals at Washington, but the Postmaster General is easily primus inter pares. If he would give a small proportion of the time and attention to perfecting the postal service which he gives to politics and to matters of legislation which do not pertain to his department, it would be a good thing for the public service and it would be conducive to less friction on Capitol Hill.

THEIR BUSY DAY

Though their candidate for the Democratic nomination as Governor of Pennsylvania was defeated in the primary by a thumping majority, Vance McCormick and A. Mitchell Palmer can prove an alibi. They were so busy with the comfortable government jobs which the war and a benevolent Democratic President have dropped into their laps that they had no time to devote to Mr. Guffey's canvass. And even if they had and he had been nominated, it would have made no difference in the long run. The Republicans will carry Pennsylvania this fall again as usual.

"Keep a smile on your face till 10 o'clock
and it will stay there all day"

Says Douglas Fairbanks.

If there is anything that will put a "smile" on, outside of favorable—and more favorable—news from "over there" then it's an hour sitting at your Pianista—with the wonderful Ukulele attachment of an evening after a hard, strenuous, weary day of labor, of any kind.

To the manager, machinists, salesman, the iron worker, the farmer, the mother or wife, tired, nerve-racked every day workers of every kind, music gives rest, peace, happiness—all that is good and helpful and this is needed now, more than ever before.

Many a man and woman today can look back through the flight

By playing mother's dear old favorite songs and tunes you can—in the spirit of recollection—live over again the revered "long ago music" dearest to you today than ever.

It's restful to tired, worn-out, nerve-racked humanity, whether they live in a mansion, flat or cottage—the result is the same and the cost of this wonderful rejuvenation is so moderate—less than \$500.00.

Can you afford it? Of course you can, as a good investment not only for yourself but for your family, as one and all can play the Pianista—any music they prefer.

Pianista \$465 and Up
With UKULELE ATTACHMENT

If you can do so, call, see, hear and play the Pianista. If not, mail the coupon for catalogues and our new selling plan.

J. F. RUGGLES, Pastor.

First Presbyterian Church.

Preaching by the pastor at 10:45 a. m. and 7:30 p. m.

Sunday School at 9:30 a. m., a. M. J. Cochran, Superintendent.

Christian Endeavor at 6:45 p. m.

Apostolic Holiness Church.

Sunday School Sunday at 2 p. m.

Earl C. Dryden, Superintendent.

Preaching at 3 p. m. and 7:15 p. m. by the pastor, Rev. O. N. Rees.

Everyone is cordially invited to attend these services.

Forest Avenue M. E. Church.

Services as follows until otherwise announced:

Sunday School each Sabbath 9:30 a. m., George N. Harding, Superintendent.

Prayer Meeting each Wednesday evening 7 p. m.

Class Service each Second and Fourth Sunday in each month.

Preaching by the pastor every first and third Sunday in each month, both morning and evening services. Also, Brother Dan Valentine, our local preacher, will preach on every fifth Sunday occasionally.

A hearty welcome is extended to one and all, don't fail to come.

J. F. RUGGLES, Pastor.

St. Patrick's Church.

Until differently announced, the services will accord with this schedule: Sunday: First mass at A. M. Second mass at 10 a. m. Benediction of the Most Blessed Sacrament at 3 p. m. Week Days: Masses at 6:30 and 8 a. m.

Church of Nativity.

Pursuant to a written request from the Vestry and Communicants, the Bishop of the Diocese has appointed a Lay Reader, ad interim; and hence the service of the church will thus be conducted until further notice.

Morning Prayer and sermon at 10:45 a. m.

Sunday School at 9:30 a. m.

The public is cordially invited to attend.

OMAR DODSON, Senior Warden.

Second M. E. Church, South.

The topic for Sunday night at the Second M. E. Church, South, will be "The Missionary Outlook". No collection will be taken for missions. All of the denominations are planning for a great drive in the near future for missions in view of the reconstruction to follow the war. The other services will be as usual at this church.

Do not forget that services are held every Sunday morning and evening at the Second M. E. Church, South, East Second street by the pastor. He has no other church in his charge. He can be found at any time at the parsonage, immediately at the rear of the church on Williams street, where he will gladly receive all callers. Especially those interested in salvation, saved or unsaved.

Sunday School at 9:30 a. m. Epworth League 7:15 p. m. Morning service 10:45 a. m., evening service 8 o'clock.

J. J. DICKEY, Pastor.

Third Street M. E. Church.

Our church is to be honored tomorrow by a former pastor, Rev. J. R. Reasoner of Urbana, Ill. He will preach both morning and evening. Rev. Reasoner will be remembered by our older residents as pastor of this church in 1863, in the trying period of the Civil War. He would be pleased to meet all his old friends at the services tomorrow. We trust the members of our church will honor this pastor of other years by being at both services.

Sunday School at 9:30 a. m., I. M. Lane, Superintendent. Dr. Blake has called upon the Sunday School of Methodists for a twenty per cent. increase in membership and attendance. We can more than meet this call if we rally to the school.

Epworth League devotional service at 6:45 p. m. Topic, "Education A Doorway to Service." A special invitation is given our High School boys and girls to attend this service.

S. K. HUNT, Pastor.

STRANGE DISAPPEARANCE

(Vanceburg Sun)

Mr. E. L. Moore, who came here as relief telegraph man and began work Monday week and worked up till Friday, has disappeared. Saturday he informed Mrs. Botkins at the Farmer's Hotel that he was going fishing and would not be back until late dinner. He never returned and parties have examined the creek banks for trace of him without success. He was of medium height, dark hair, smooth-shaved weight about 150 pounds and about 35 years of age. No one knows anything about where his home is if he had any. It is a strange case.

The split cedar rail figured in the Presidential campaign of 1860. The Liberty rail of this year is appropriately of steel, is painted red, white and blue, and is used, somewhat heated, to give joy rides to ship-yard workmen who think that the Kaiser is a good man much abused.

CHEMISTS PLAYING BIG ROLE IN
MEETING EMERGENCIES OF
WAR — DEADLIEST OF
GASES HAS BEEN
DISCOVERED

New York—Again the American chemists are demonstrating their capacity to meet extraordinary or even entirely new demands in order that the Government may be better prepared to maintain our armies in France against German attack.

The chemists have solved the dye problem. They have shown to the Government authorities how to obtain from an inexhaustible resource—which is the atmosphere—all the nitrogen that is needed both for war purposes and after the war for peaceful industry. Chemistry, in association with other science, is gradually but surely utilizing the various potash deposits in the United States, so that in some measure we may be relieved of the emergencies occasioned by a scarcity of this important product.

Science and invention have perfected apparatus, which is to be used in the war, of a kind which three years ago would not have been dreamed of. Now, fairly authoritative announcement comes from Washington that the chemists have matched or overmatched Germany in the production of military gas, for our chemists have discovered a formula by means of which the deadliest of gases, easily handled and to be conveniently utilized by the armies, may be made.

Early in the winter the inference was strong that the Government was preparing for the manufacture on a very large scale of poisonous gases with which our soldiers in France

could be supplied. American chemists and manufacturers have perfected the best of the gas masks, the basis of which is a peculiar weave of cotton. A million of these masks are now under construction. But these are only for defense against German gas attack.

The poisonous fumes which our chemists have discovered are said to be deadly, almost, and as instantaneous in their effect, as are the fumes of prussic acid or carbonic acid gas. The formula is in the hands of those who are operating a great poison-gas plant.

Early in the winter representatives of the Government visited manufacturers at Niagara Falls for the purpose of learning whether or not the industry there established could furnish an enormous amount of electrodes. The managers of this industry informed the Government's representative that it would be essential for the Government to lift certain restrictions upon the use of electric power at Niagara if a contract of that kind were to be accepted and executed.

Washington must have received information of that kind by telegraph, for almost immediately the restriction was removed. The Government wanted a very large amount of electrodes. Electricity of high power and great heat, it is understood, is used in the manufacture of poisonous gases. And there is no apparatus which can safely and economically be employed in the use of this great heat electricity excepting these electrodes.

The purpose to which the electrodes were to be put was, of course, no affair of the manufacturers of this apparatus, but it was inevitable that they should surmise that the Government was about to begin the manufacture of poisonous gas upon a very great scale, with intent to supply this gas to our soldiers in France.

Now it is learned that this inference was fully justified. The chemists have shown the Government a formula by means of which the deadliest of gases of a kind that can be utilized for war purposes can be economically manufactured, and the Government, in its great plant, is utilizing in the manu-

facture of these gases vast quantities of electrodes.

So also other apparatus which may be of the highest avail for our armies that are fighting in France and Flanders has been perfected. The belief prevails that within a short time it will become a matter of common knowledge that science and invention combined with patience and perseverance have perfected the best kind of aircraft and the best motors for driving the aircraft.

A British military authority who was recently permitted to witness a test of the improved Springfield rifles did not hesitate, after the test was ended, to say that, in his opinion, the Americans had perfected the best army rifle, and he hoped that the entire American army would be speedily equipped with it. He spoke of it as a wonderful gun. So also our machine gun when finished will be unsurpassed by any other, and the Ordnance Department, if the war continues, will be able to supply our armies and the navy with the best type of great guns.

On the first day of the campaign for subscriptions to the Red Cross war fund there came announcement that in the early business hours of that day George F. Baker had subscribed \$1,000,000. In the mid-week of the campaign announcement was made that Andrew Carnegie had subscribed \$1,000,000.

It was inevitable that the comment should be made that, in all probability John D. Rockefeller was waiting till the closing hours of the campaign before making his subscription.

Mr. Baker's subscription was entirely personal, although it was announced through the committee, of which his daughter-in-law, Mrs. George F. Baker, Jr., was the Chairman. The Carnegie subscription was made in the name of the Carnegie Foundation.

Although the Carnegie Foundation was established by a gift of Andrew Carnegie, yet the subscription of \$1,000,000 which was made in the name of the foundation was not Andrew Carnegie's personal subscription.

The Rockefeller Foundation, which was established by munificent gift from John D. Rockefeller, might make a subscription to the Red Cross fund, but that would not be John D. Rockefeller's gift.

One gratifying feature associated with the campaign for Red Cross subscriptions last week was the payment of much the larger part of the subscriptions in full although under the terms of the proposition it was possible to pay it in installments. So also throughout the country the understanding is that the larger part of the subscriptions were paid upon the spot in cash.

EDUCATIONAL WORK IN TRAINING CAMPS

Educational classes in the army camps form an important part of the work of the Committee on Training Camp Activities. This work is maintained with the help of local committees. One of the ways in which these local committees are cooperating most effectively with the camp forces is in the securing of teachers of French and other subjects. The men are eager to prepare themselves for the time when "somewhere in France" they will meet the men with whom they are to fight side by side. The War Recreation Boards in many cities are making this possible by providing teachers not only at the camps but in the communities. Atlanta, Ga., for instances, is furnishing French teachers for the Y. M. C. A. educational director at camp; Burlington, Vt.; Charleston, S. C.; Chicago, Ill. (where a five hour trip is involved for the teachers going to Highland Park), Indianapolis, Ind.; Pensacola, Fla.; San Francisco, Cal.; Spartanburg, S. C.; Minneapolis and St. Paul, Minn., and

many other cities are performing similar services. In Alexandria, La., a grammar school has been opened in the evening for classes in French and History. In Chattanooga, the Board of Education is attempting to supply the educational material necessary for the 300 men enrolled in classes in camp, many of whom can neither read nor write. Three hundred fifty arithmetic books sent to the War Recreation Board by the American Book Company of Cincinnati are being put into excellent use at camp.

The University of South Carolina at Columbia is giving courses in French, History, Mathematics and Topography at a nominal rate. Saturday night lectures are being given at the base hospital at Camp Cody by teachers from Deming High School. This school will be open evenings for classes in French, Spanish, Mathematics, Science and History. The educational work for the men at Fort Bliss has been taken over by the president of the University of Texas, who has assigned five university instructors and three volunteers to the work, the army providing transportation to the camp for the instructors. Two thousand men were enrolled in the classes. At Deming High School. This school will be open evenings for classes in French, Spanish, Mathematics, Science and History. The educational work for the men at Fort Bliss has been taken over by the president of the University of Texas, who has assigned five university instructors and three volunteers to the work, the army providing transportation to the camp for the instructors. Two thousand men were enrolled in the classes.

The men at the Navy Yard, through the courtesy of organizations in Philadelphia, are having instruction in automobile mechanics, electricity, typewriting and surveying, as well as in academic subjects. The Universities of Wisconsin and California are sending instructors to the nearby camps.

Closely allied to the educational work at the camps and in the communities is the movement which has spread rapidly through all the camp cities to collect books and magazines for the men in camp for use at the Y. M. C. A. recreation huts, the base hospitals, the barracks and in many instances the khaki clubs in the communities. In all of this work the libraries have been most helpful in acting as clearing houses and in sorting and grading the books before they are sent to camp. The libraries of a number of cities are throwing open their facilities to the soldiers on Sunday afternoon and in the evenings when the men are in town. Many of them have established branch libraries at the camps.

It is necessary for each family to grow and preserve food for itself so far as practicable—necessary to get back to the habits of our forefathers, whose household became producing and manufacturing plants for their own maintenance.

Let out one of us, women of America, fail to put our houses in order for the business of canning—then more canning—until we have done our utmost.

I will be glad to answer any question written on one side of the paper and sent to me in na self addressed

Another objection to following women leaders is that they would always be wondering if they were properly buttoned up at the back.

Sometimes a little boy is so opposed to wasting food he uses his tongue for a napkin.

WHAT'S THE REASON?

Many Maysville People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from ennervation, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble.

Look to your kidneys, assist them in their work—give them the help they need.

You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Maysville.

Mrs. W. A. Schatzmann, 605 East Second Street, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chancellor's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schatzmann uses—the remedy backed by home testimony, 50¢ all stores. Foster-Milburn Co., Prop., Buffalo, N. Y. "When Your Back Is Lame—Remember the Name."

WOME NTHE SAVERS

(By Laura Buffum)

When it comes right down to the women of the country are the savers. They are the home managers and they know what thrift means whether it be in food or money. This task, which none of us can afford to shirk—

CALLS 280,000 MEN

Washington, May 31—Official announcement was made today that 280,000 men will be called to the colors during June. They will be ordered to report June 24, but it has not yet been determined to what camps they can be assigned, so the list of apportionments is for the present being withheld.

The quota is based on estimates of the space available for the men in the camps and cantonments. If the rate of shipment of troops across is again raised still more men may be called. In any event the probabilities are that enough men will be called for special service to round the number out to 300,000.

REV. FINNELL TO BECOME SECRETARY OF TRANSYLVANIA UNIVERSITY

Rev. J. Leslie Finnell, for the past several years pastor of the Mill Creek Christian Church, has resigned to accept a position as secretary of Transylvania University, Lexington. Rev. Finnell has been one of the most popular and successful pastors of the Mill Creek Church and it is with genuine regret that his friends and the members of his congregation learn that he is to leave. He will assume his new duties on July 1.

Mr. Edward W. Breen, formerly of this city, being a brother of Mrs. Roger L. Devine and Mr. Thomas M. Breen, has recently purchased the interest of Mr. Baylor Hickman and the Forman heirs in the Forman-Breen Co., Louisville, manufacturers of harness and leather goods, and is now the sole owner. Mr. Breen's many friends here will be glad to know of his success in the business world.

Messrs. Harold Pollitt and Murray Simpson, who joined the Hospital Corps of the United States Army at Cincinnati last week, leave tomorrow for Fort Thomas.

Mrs. William Freeman and daughter, Miss Dorothy, of Chicago, are the guests of Mrs. R. C. Nash.

Y. M. C. A.

Wants Automobile Drivers For France
—A Good Chance For Men Who Are Out of the Draft Age to Show Their Patriotism—
A Chance For the Old Bachelors.

How would you like to drive a motor truck for the Y. M. C. A. in France?

Here's a chance for you, if you can meet the requirements.

The National War Work Council of the Y. M. C. A. desires immediately 100 expert men who own their own cars and know enough about them to make minor repairs if necessary for its motor transport service with the American Expeditionary Forces and the French armies. This service offers a great chance to the man who is beyond draft age, is in sound physical condition and wants to get across.

"While we desire as many volunteers as possible who can contribute their services," says the Council's statement just received here, "we welcome the man of the highest type who cannot afford to go overseas at his own expense. We don't pay high salaries, but men with dependents are assured that their families will be amply provided for while they are in France."

It is hoped to secure at least 100 men of this type during the present month. It is by no means a sinecure, for the motor truck drivers are in the very thick of things along the western fronts. In the recent German drive the Y. M. C. A. trucks have been turned into ambulances. But it offers an opportunity to do a great big bit for the fellows who go "over the top."

"We want the highest grade of men," says W. O. Wilson, Recruiting Secretary for the Y. M. C. A. motor transport service in New York, in a statement to this paper. "Their duties will require unusual versatility. At one hour of the day they may be in conference with a division commander regarding questions of policy, and later they may be bossing a crew of men in the loading or unloading of the truck. Recruits for this service may be able to 'meet the colonel' on equal terms and at the same time direct the work of men in the most subordinate positions."

"Opportunities for courage under fire won't come to the recruits in this service every day. For the most part they will drive and take care of their own trucks, camions and scout cars. Mechanics have been enlisted to do the intricate repairing. But there is also the possibility for service in an emergency. Our drivers may be called upon to jump from their own trucks to pick up a shovel and feverishly help in the digging of a trench; the construction of a Y. M. C. A. Hut may require an extra man; whatever the service, our Y. M. C. A. men must be prepared."

The post exchange work, Mr. Wilson further explains, is a large field for business men of proved ability as organizers. The post exchanges are the "general stores" of the camps and trenches; everything is sold there and they are the assembly centers for the men when off duty. To keep them running at their maximum efficiency requires that the motor transport service be efficient, even in the face of difficulties. Men who can coordinate transportation, Mr. Wilson declares, will find no limit to the opportunities given by the service which the Y. M. C. A. is doing at the request of the Allied governments.

This is the chance that those fellows who are all the time saying "you ought to be glad that you are young so you can fight for Uncle Sam," to get into the service and do their bit. You know it is easy for the fellow who is out of the draft to say, "I would go if they would have me." They will!

DIFFICULTIES

In Obtaining Trained Agricultural Workers—6,048 Regular Members Have Left the Service to Engage in Military or Naval Service.

Washington, May 31—Some indication of the difficulties experienced by the Department of Agriculture in its efforts to stimulate production; to assist the farmers of the Nation in improving and extending their operations, in combating animal and plant diseases and insect pests and in other directions; to maintain the efficiency of the Meat Inspection Service and of the National forest organization; and properly to administer the 31 regulatory laws under its jurisdiction, is given in a statement issued by the department.

According to this statement 6,048 regular members of the department have left the service to engage in other occupations or have entered the military or naval service since the declaration of a state of war with Germany on April 6, 1917. Of this number, 1,537 have joined the military and naval forces, and the services of 4,511 employees, including 958 women, have been lost to the department in other ways. The State Relations Service, for instance, which supervises the agricultural-extension work in co-operation with the State agricultural colleges, has lost 867 men and 550 women, the Forest Service 729 men and 89 women, the Bureau of Animal Industry 1,312 men and 55 women, the Bureau of Markets 293 men and 47 women, and other branches such as the Bureau of Chemistry, the Bureau of Plant Industry, and the Weather Bureau have been heavily drawn upon. Most of these employees are experts in their particular fields and were performing important duties in the department which required long training and peculiar qualifications—some of them very special technical qualifications.

Under the Food Production Act of August 10, 1917, the Congress made available to the department an additional appropriation of \$11,346,400 for the extension and development of its activities in many directions and directed the department to carry out its intentions in this respect. The department, therefore, has been in the position of having to increase its forces very considerably when at the same time, it has been losing large numbers of its most effective and trained employees. The difficulties in securing men of the requisite training and of retaining those already in the service have been very great.

Mr. Frank S. Tolle, for the past several years city editor of the Daily Independent, leaves Monday for Lexington to accept a similar position with the Herald.

ENLARGE PLANT AT RUSSELL

Chesapeake & Ohio to Make Improvements There—Exact Amount to Be Expended Has Not Been Made Public by Rail-road Officials.

In connection with the Chesapeake & Ohio railroad company's 1918 improvement program, Russell, will also come in for a large slice of the road's \$18,000,000, it has become known. The exact amount which the company will spend there has not been announced. Blue prints and specifications have been completed.

These will be changed somewhat to conform with the change in the budget from \$21,000,000 to \$18,000,000, according to official advice. The improvements will include increased round house facilities at the freight terminal as well as more trackage.

One of the necessary improvements is the addition of thirty-five round stalls for the new engines. This was made necessary last winter when the thirty-five large freight engines were frozen, costing the road thousands of dollars to put them back into commission.

The Russell improvements, like those at the Huntington shops, will be started as soon as possible. The government has requested that all roads, having been empowered to spend their appropriation, complete the work as soon as possible. The contractors for the work have not been announced.

MEMBERS OF HOUSE VOTE TEN BILLIONS TO MAINTAIN ARMY

Washington, May 31—The largest annual army appropriation bill in history, carrying \$12,041,682,000 and authorizing the President to call into military service all men who can be trained and equipped, was passed late today by the House and sent to the Senate.

The House broke its record for speed on an army bill by taking the final vote after three days of debate.

The measure is framed to provide for an army of three million men during the coming year, in accordance with the government's revised program for rushing soldiers to France. Some of its big items are \$3,315,135,000 for the quartermaster corps; \$3,366,000,000 for ordnance; \$1,028,000 for the engineer; \$990,250,812 for aviation and \$267,000,000 for the medical corps.

A provision prohibiting the use of stop-watchers or other speeding up devices in plants where money provided in the bill is spent was adopted by a vote of 63 to 59.

Air is light, but some people put on more airs than they can carry.

How's This?
